CALOMEL DYNAMITES YOUR LIVER! MAKES YOU SICK AND SALIVATES

**"Dodson's Liver Tone" Starts Your Liver
Better Than Calomel and You Don't
Lose a Day's Work**

Live up your sluggish liver! Feel fine and cheerful; make your work a pleasure; be vigorous and full of ambition. But take no nasty, dangerous calomel because it makes you sick and you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones, calomel crumbles into your bile like dynamite, breaking it up. That's when you feel that awful nausea and cramping. Listen to me! If you want to enjoy the nicest, gentlest liver and bowel cleansing you ever experienced, just take a spoonful of harmless Dodson's Liver

Tone tonight. Your druggist or dealer sells you a 50 cent bottle of Dodson's Liver Tone under my personal money-back guarantee that each spoonful will clean your sluggish liver better than a dose of nasty calomel and that it won't make you sick.

Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine, your liver will be working; headache and dizziness gone; stomach will be sweet and bowels regular.

Dodson's Liver Tone is entirely vegetable, therefore harmless and can be salivated. Give it to your children. Millions of people are using Dodson's Liver Tone instead of dangerous calomel now. Your druggist will tell you that the sale of Calomel is almost stopped entirely here.

In giving us news items, our informants are advised to be very careful. A mis-stated news item cannot be construed to be a joke, however well intended the "joke" may be, and is often embarrassing. They get their mail on Caruthersville Route 1, and it may be that the recent change to free delivery in Caruthersville has something to do with the matter, which, of course, will be overcome in a few days. We think the Post Office Department is decidedly wrong in its ruling that we must place all mail addressed to Caruthersville in the same pouch. Otherwise, the rural route and out-of-town mail could not and would not become mixed.

For the first time in many years we are having a "June overflow," which is one of the most dreaded overflows people along the Mississippi river have to contend with, although it is said there has been an overflow for every month in the year. While the water will not get high enough to do those protected by the levee any harm, unless it may be from a little seep water, the people living on the river side of the levee will suffer great inconvenience and loss, and the crops on the lowest lands will have to be planted over, but if the water recedes quickly there is plenty of time to make good corn.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free.

THE DAGUERROTYPE: May 9th, 1840: A most important consummation has been attained in this wonderful art. In Philadelphia, likenesses of the human face have been taken by it. The resemblance is divine.

Compare it with no other beer; for its flavor is its own—delightfully, wholly Falstaff.

Beer is a food. Bread and beer are made of the same materials: cereals, yeast and water. Bread is solid; beer is liquid—both are highly nourishing. Physicians prescribe beer to produce energy, build tissue and strengthen nerves. Good beer is
